

Philosophy 3334 Fall 2023
Reading questions #17
Due Tue, Dec 5

1) Read Harden chapter 12. Explain what she means by a policing being an anti-eugenic policy. How is this different than simply not being a eugenic policy? How is it different than being genome blind?

2) The genetic information non discrimination act (GINA) prevents the use of genetic information as a basis of differential treatment for health insurance or employment. This is an example of a genome blind policy and so Harden seems to be arguing against it. What is the alternative? What does Harden think would be a good use of genetic information? – Do you agree?

3) After reading the chapters, come up with a question that you want answered or a topic that you would like to be discussed. This could be something that the chapters forced you think about or it could be something that you thought was particularly confusing in the chapters.
