Reading questions #9
Due Mon, June 18th

1) Read Cosmides and Tooby's "Evolutionary Psychology: A Primer" (Chapter 6 of *Arguing about Human Nature*). What do they mean when they say that humans have "stone-age minds"?

2) After reading the chapter, come up with a question that you want answered or a topic that you would like to be discussed. This could be something that the chapters forced you think about or it could be something that you thought was particularly confusing in the chapters.
