Reading questions #8
Due Fri, June 15th

1) Read Wilson's On Human Nature (Chapter 1 of *Arguing about Human Nature*). Wilson claims that every culture of humans ever looked at has a strong incest taboo against sexual relations between close family members. What does Wilson think is the basic explanation for why every culture has this taboo?

2) After reading the chapter, come up with a question that you want answered or a topic that you would like to be discussed. This could be something that the chapters forced you think about or it could be something that you thought was particularly confusing in the chapters.
