Reading questions #1
Due Tues, Jan 21

- 1) Read Chapter 1. What is Dawkins' definition of altruistic behavior?
- 2) Read Chapter 2. Does Dawkins think that the original replicators were alive? What can you infer about what he thinks the definition of life is? What do you think the difference between living and non-living things is?
- 3) After reading the chapters, come up with a question that you want answered or a topic that you would like to be discussed. This could be something that the chapters forced you think about or it could be something that you thought was particularly confusing in the chapters.
